If the compensation does not match we will not sign the offer. If Realtor wants additional compensation that will need to be paid by our client directly to the Brokerage or delivered to Berry-Rock Homes for additional Realtor compensation within 3 days of being under contract with the 7% option consideration. Inspection Process

Berry Rock Homes strives for a smooth and collaborative inspection process. We are committed to work with our Realtor partners to deliver a home that meets our client's and company's expectations and sets them up for success. It is imperative with every transaction that inspections are coordinated with both the client and our company within the inspection period. Berry Rock Homes is focused on 5 major items that have to be in good working order as they are the most important items for our client. The 5 major items are as follows: Roof, Foundation, Plumbing, HVAC & Electric. We may also request other repairs be made if necessary. During the home search with approved clients, be sure to pay extra attention to these items on the sellers disclosure as they are what our company will be scrutinizing during the inspection period. Our clients are responsible for repairs and maintenance on the home so we want to work with our Realtor partners to ensure that the "big ticket" items are in good condition for our clients.
